1. Introduction and Description:

You can experience the past times of the active branch lines of Deutsche Bundesbahn here. It is about the epoch III / IV simulated so consistently shape signals are installed. Part of the route are original based, parts are fictious (being based on plans around 1900)

In particular, there are 4 track list:

1. Kronach – Nordhalben - 24,9 km (real – today only Steinwiesen – Nordhalben as stand-alone operation)
www.wikipedia.de
2. Naila – Bad Steben – 8,8 km (real – selection of the route Hof – Bad Steben)
www.wikipedia.de
3. Naila – Schwarzenbach am Wald – 9,9 km (till 1994 – dismantled in original)
www.wikipedia.de
4. Marxgrün – Dürrenwaid – 24 km (fikcional – planned route variant 1 around 1900)
5. Wallenfels – Schwarzenbach a Wald – 20 km (fikcional – planned route variant 2 around 1900)
6. Hof – Marktredwitz – 41,5 km

4. and 5. you can read in the book "**Die Rodachtalbahn - Geschichte der Lokalbahn von Kronach nach Nordhalben**" available at www.rodachtalbahn.de

In complete you can explore around 150 km, 36 stations and many industrial rail connections

5. Donation Link:

If you like my route i would be pleased if you send me a small donation (with wich i can buy technical literature for example)

6. Installation:

You get with this route these files:

- RodachtalBahn Plus 2.01.rwp
- Assets Schienenbus 2.01.rwp
- RodachtalBahn Plus 2.01 Fremdassets.rwp
- MigDesign.zip
- Readmes „Route RodachtalBahn Plus 2.01“ (You read this right now)

Install these 3 .rwp files with the program Utilities.exe which you can find in the Train Simulator main directory.

There you click on „install“, choose all 6 files and click on „open“.

The rest makes the program.

The „**md-components.zip**“ file unzip to: Steam\SteamApps\common\RailWorks\Assets\

The path must look like these: **Railworks\Assets\MigDesign**

8. Thanks to:

- BeeKay - for the provision of his Steam-depot parts
- Michael Huebner - that i got the permission to pack his „MD-Components“ with my route
- Rschally - that i got the permission to pack his Depot-parts with my route
- StS (Rail-Sim) - for his great help
- Sandra-Marion - for the lovely vehicles
- ice - for the stations Hof and Martredwitz, the bridge at Neusorg and the fuel station
- Schuster - for the wonderful signalscripts
- GreatNortherner - that he has released his assets for delivery
- DoubleM - for his help at testing and improvement suggestions
- Radiomaster - that he allowed me to integrate his assets into my provider

All Asset builders without whom I would not have the route to go and all the other people I was able to perforate with questions and have always been very good helped me.
